ASPIRIANT TRUST NOTES TO FINANCIAL STATEMENTS

September 30, 2022 (Unaudited)

1. ORGANIZATION

Aspiriant Trust, which was organized on November 22, 2011, is a Delaware statutory trust registered under the Investment Company Act of 1940 (the "1940 Act") as a diversified, open-end management investment company (the "Trust"). The Trust currently consists of the following four diversified portfolios: Aspiriant Risk-Managed Taxable Bond Fund (the "Taxable Bond Fund"), which commenced operations on March 29, 2018, Aspiriant Risk-Managed Municipal Bond Fund (the "Municipal Bond Fund"), which commenced operations on July 1, 2015, Aspiriant Defensive Allocation Fund (the "Defensive Allocation Fund"), which commenced operations on December 14, 2015, and Aspiriant Risk-Managed Equity Allocation Fund (the "Equity Allocation Fund", together with the Taxable Bond Fund, the Municipal Bond Fund, and the Defensive Allocation Fund, each individually referred to as a "Fund" or collectively, the "Funds"), which commenced operations on April 4, 2013. The Taxable Bond Fund, the Municipal Bond Fund, and the Defensive Allocation Fund have each established, offered and issued only one class of shares. The Equity Allocation Fund has established two classes of shares: Advisor Shares and Institutional Shares. Only Advisor Shares have been offered and issued to date. The Funds' investment objectives are as follows:

The Taxable Bond Fund – The investment objective of the Taxable Bond Fund is to maximize long-term total return. The Fund invests primarily in Underlying Funds and may, to a limited extent, invest in separately managed accounts ("SMAs"). To achieve its investment objective, under normal market conditions, the Fund invests through underlying funds ("Underlying Funds") and SMAs at least 80% of its net assets (plus the amount of borrowings for investment purposes) in bonds and other fixed income securities. The Fund intends to allocate its assets to Underlying Funds and SMAs that primarily invest in various types of bonds and other securities, typically government and agency bonds, corporate bonds, notes, mortgage-related and asset-backed securities, collateralized debt obligations, zero coupon bonds, bank loans, money market instruments, repurchase agreements, swaps, futures, options, credit default swaps, private placements and restricted securities. These investments may have interest rates that are fixed, variable or floating. The Underlying Funds and SMAs may invest in the U.S. and abroad, including international and emerging markets, and may purchase securities of any credit rating and varying maturities issued by domestic and foreign corporations, entities and governments.

The Municipal Bond Fund - The investment objective of the Municipal Bond Fund is to seek total return on investment through income exempt from regular federal income taxes and through capital appreciation. Under normal circumstances, the Municipal Bond Fund seeks to achieve its investment goal by investing at least 80% of its total assets in municipal securities that pay income that is exempt from regular federal personal income tax. These municipal securities include obligations issued by U.S. states and their subdivisions, authorities, instrumentalities, and corporations, as well as obligations issued by U.S. territories (such as Puerto Rico, the U.S. Virgin Islands and Guam), which may include a focus on the California municipal securities market. The Municipal Bond Fund may invest without limit in securities that generate income subject to the federal alternative minimum tax applicable to non-corporate shareholders. The Municipal Bond Fund may invest in bonds of any maturity and duration. The Municipal Bond Fund may invest in securities of other investment companies, including open-end and closed-end funds, exchange-traded funds ("ETFs") and private funds that invest primarily in securities of the types in which the Municipal Bond Fund may invest directly.

The Defensive Allocation Fund – The investment objective of the Defensive Allocation Fund is to achieve long-term investment returns with lower risk and lower volatility than the stock market, and with relatively low correlation to stock and bond market indexes. Under normal circumstances, the Defensive Allocation Fund seeks to achieve its investment objective by investing primarily in Underlying Funds and may, to a limited extent, invest in SMAs, which are private portfolios of securities for individual accounts. The

ASPIRIANT TRUST NOTES TO FINANCIAL STATEMENTS (Continued) September 30, 2022 (Unaudited)

1. ORGANIZATION (Continued)

Fund seeks to provide a return that has lower volatility than traditional asset classes (i.e., public equity and investment grade bonds) by combining several non-traditional or alternative asset class exposures, including investments that focus on a specialized asset class (i.e., long-short strategies).

The Defensive Allocation Fund's exposures may include global equities, global fixed income, market neutral, global macro, managed futures, relative value, long/short equity, long/short debt, merger arbitrage, convertible arbitrage, security arbitrage, managed futures, derivatives and other non-traditional strategies.

The Equity Allocation Fund - The investment objective of the Equity Allocation Fund is to achieve long-term capital appreciation while considering federal tax implications of investment decisions. Under normal circumstances, the Equity Allocation Fund seeks to achieve its investment goal by investing at least 80% of its net assets (plus borrowings for investment purposes) in equity securities. The types of equity securities the Fund will invest in include common stock, preferred stock, and depositary receipts. The Fund also may invest in securities that provide exposure to equity securities (i.e. rights, warrants, and investment company shares). The Fund will hold a broad and diverse group of equity securities of companies in countries with developed and emerging markets. The Fund may invest in companies of any market capitalization. The adviser and sub-advisers generally will consider selling securities when other securities are identified that may result in a better opportunity.

Aspiriant, LLC (the "Adviser") serves as the investment adviser to the Funds. The Board of Trustees ("Trustees") of the Trust (the "Board") has the overall responsibility for monitoring the operations of the Trust and the Funds, including the Adviser.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Trust is an investment company and follows the investment company accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, "Financial Services-Investment Companies".

(a) Securities Valuations

The Board has delegated day-to-day management of the valuation process to the Adviser as the appointed Valuation Designee, which has established a valuation committee (the "Valuation Committee") to carry out this function. The Valuation Designee is subject to the oversight of the Board. The Valuation Designee is responsible for assessing and managing key valuation risks, and is generally to review valuation methodologies, valuation determinations, and any information provided by the Adviser.

Securities are valued at market value as of the regularly scheduled close of trading (generally 4:00 p.m. Eastern time) on each business day when the New York Stock Exchange ("NYSE") is open. Securities listed on the NYSE or other exchanges are valued on the basis of the last reported sale price on the exchange on which they are primarily traded. However, if the last sale price on the NYSE is different from the last sale price on any other exchange, the NYSE price will be used. If there are no sales on that day, then the securities are valued at the bid price on the NYSE or other primary exchange for that day. Securities traded in the over-the-counter ("OTC") market are valued on the basis of the last sales price as reported by NASDAQ®. If there are no sales on that day, then the securities are valued at the mean between the closing bid and asked prices as reported by NASDAQ®. Securities for which market quotations are not readily available and other assets are valued at fair value as

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Securities Valuations (Continued)

determined pursuant to procedures adopted in good faith by the Board. Debt securities including listed issues, are valued by using an evaluated mean price furnished by an independent pricing service, which may use matrix and valuation models as necessary to formulate its prices.

In the case of certain foreign securities, the local exchange close occurs at various times before the close of the NYSE. Therefore, foreign securities traded in countries outside the U.S. are fair valued by utilizing the fair value factors provided by an independent pricing service. The pricing service uses statistical analyses and quantitative models to adjust local close prices using factors such as subsequent movement and changes in the prices of indices, securities and exchange rates in other markets in determining fair value as of the time each Fund calculates its net asset value ("NAV"). Foreign currency exchange rates are generally determined at the close of the NYSE.

Redeemable securities issued by open-end investment companies are valued at the investment company's applicable NAV.

The investments in private funds, that are not publicly traded, such as limited partnerships, limited liability companies and exempted companies, are typically valued using each Fund's percentage share of the NAV of the respective private fund, as reported by the private funds' managers and their agents, when the NAV is calculated in a manner consistent with measurement principles in FASB ASC Topic 946 for investment companies. Such values are calculated according to the valuation policies of the particular private fund. Investments in private funds are subject to the terms of the private funds' offering documents. Valuations of the private funds may be subject to estimates and are net of management, performance incentive fees or allocations payable to the private funds' managers as required by the private funds' offering documents.

(b) Fair Value Measurements and Disclosures

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of each Fund's investments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those investments. These inputs are summarized into three broad levels as described below:

- Level 1 – unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, benchmark yields, bids, offers, transactions, spreads, cash collateral received as part of the securities lending program, and other relationships observed in the markets among market securities, underlying equity of the issuer, proprietary pricing models, credit risk, etc.); or
- Level 3 – significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

The Trust measures the fair value of its investments in private funds that do not have a readily determinable fair value, based on the NAV of the investment as a practical expedient, without further adjustment, unless it is probable that the investment will be sold at a value significantly different than the NAV. If the practical expedient NAV is not as of the reporting entity's measurement date, then the NAV is adjusted to reflect any significant events that may change the valuation. In using the NAV as a practical expedient, certain attributes of the investment, which may impact the fair value of the investment, are not considered in measuring fair value.

(c) Security Transactions and Related Investment Income

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums using the effective interest method. Dividend income and distributions to shareholders are recorded on ex-dividend dates. Distributions from underlying investment companies are classified as investment income or realized gains based on the U.S. income tax characteristics of the distribution. Realized gains and losses on investments and unrealized appreciation and depreciation of investments are reported on the identified cost basis, which is also used for income tax purposes.

(d) Foreign Currency and Risk

- i. Assets and liabilities — at the closing rate of exchange as of 4:00 p.m. Eastern time on September 30, 2022.
- ii. Purchases and sales of investment securities, income and expenses are recorded at the rate of exchange prevailing on the respective dates of such transactions (or the average rate if significant rate fluctuations have not occurred).

The Funds do not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of securities held. Such fluctuations are included within the net realized and unrealized gain (loss) on investments on the Statement of Operations.

Reported net realized foreign currency gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Funds' books and the US dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in the exchange rate.

Foreign investments present additional risks due to currency fluctuations, economic and political factors, government regulations, differences in accounting standards and other factors. Investments in emerging markets involve even greater risks.

(e) Securities Lending

The Funds may participate in a securities lending program, providing portfolio securities to brokers, dealers, and financial institutions. When the Funds participate in securities lending they will be entitled to payments equal to the interest and dividends on the loaned securities and may receive a premium for lending the securities. As collateral, the Funds receive cash ("Cash Collateral") or securities, such as various government securities or common stocks listed on certain indices ("Non-Cash Collateral") in return for the securities and records a corresponding payable for collateral due to the respective broker. The amount of collateral received is maintained at a minimum level of 102% of the prior day's market value on securities loaned. Investment transactions, including securities on loan and the related collateral, are recorded on a trade date basis. Cash collateral is reinvested in money market funds and, with other entities participating in the securities lending program, in short term securities including overnight repurchase agreements, time deposits, commercial paper, master notes, floating rate corporate notes (with at least quarterly reset rates). The valuation of collateral is discussed in "Securities Valuations" in Note 2 of the Notes to the Financial Statements. When the Funds lend their portfolio securities, they are subject to the risk that they may not be able to get the portfolio securities back from the borrower on a timely basis, in which case the Funds may lose certain investment opportunities. The Funds also are subject to the risks associated with the investments received as collateral from the borrower.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Securities Lending (Continued)

For the six months ended September 30, 2022, the Taxable Bond Fund, Municipal Bond Fund and Defensive Allocation Fund had not participated in a securities lending program. The Equity Allocation Fund's securities on loan were appropriately collateralized at September 30, 2022. Cash Collateral received as part of the Equity Allocation Fund's securities lending program was invested in the following securities as of September 30, 2022:

Description	PAR	Value
Repurchase Agreement with HSBC Securities, Inc., 2.95%, 10/3/2022*#	\$ 25,816,949	\$ 25,816,949
Repurchase Agreement with Natixis, New York, 2.95%, 10/3/2022*#	10,000,000	10,000,000
Total	\$ 35,816,949	\$ 35,816,949

* The rate shown is the annualized 7-day yield as of September 30, 2022.

The repurchase agreement is collateralized by a fixed income U.S. Treasury Security in the amount of \$36,542,269.

As of September 30, 2022, the Equity Allocation Fund held Non-Cash Collateral in the amount of \$17,298,959 which consisted of U.S. Treasury Securities.

The Equity Allocation Fund pays a portion of net revenue from securities lending to JPMorgan Chase Bank, N.A. ("JPM") for its services as the securities lending agent. The securities lending income as shown in the Statement of Operations is net of these expenses. For the six months ended September 30, 2022, the Equity Allocation Fund paid \$29,349 to JPM from securities lending revenue.

(f) Distributions to Shareholders

The Taxable Bond Fund and Municipal Bond Fund intend to pay dividends from net investment income at least quarterly. The Defensive Allocation Fund and Equity Allocation Fund intend to pay dividends from net investment income at least annually. The Funds intend to distribute all or substantially all of their net realized capital gains (reduced by available capital loss carryforwards from prior years) at least annually. Distributions are recorded on the ex-dividend date. The Funds distinguish between distributions on a tax basis and a financial reporting basis. U.S. GAAP requires that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital. For tax purposes, distributions from short-term capital gains are considered to be from ordinary income. The final determination of tax characteristics of each individual Fund's distributions will occur at the end of the year, at which time it will be reported to the shareholders.

(g) Amortization

Discounts on securities purchased are amortized over the life of the respective securities. Premiums on securities purchased are amortized over the life of the respective security, unless the security has a non-contingent call feature, in which case the premium is amortized to the earliest call date.

(h) Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires the Funds to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. The Funds believe that the estimates utilized in preparing the financial statements are reasonable and prudent, however, actual results could differ from these estimates.

ASPIRIANT TRUST NOTES TO FINANCIAL STATEMENTS (Continued) September 30, 2022 (Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Commitments and Contingencies

In the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims against the Funds that have not yet occurred. Based on experience, the Funds expect the risk of loss to be remote.

(j) Derivatives

Futures Contracts – A Fund may engage in futures transactions. The Fund may buy and sell futures contracts that relate to (1) interest rates, (2) debt securities, and (3) bond or equity indices. The Fund may only enter into futures contracts which are standardized and traded on a U.S. or foreign exchange, board of trade or similar entity, or quoted on an automated quotation system.

A futures contract is an agreement between two parties to buy and sell a security, index or interest rate (each a "financial instrument") for a set price on a future date. Certain futures contracts, such as futures 7 contracts relating to individual securities, call for making or taking delivery of the underlying financial instrument. However, these contracts generally are closed out before delivery by entering into an offsetting purchase or sale of a matching futures contract. Other futures contracts, such as futures contracts on indices, do not call for making or taking delivery of the underlying financial instrument, but rather are agreements pursuant to which two parties agree to take or make delivery of an amount of cash equal to the difference between the value of the financial instrument at the close of the last trading day of the contract and the price at which the contract was originally written. These contracts also may be settled by entering into an offsetting futures contract.

(k) Federal Income Taxes

Each Fund's policy is to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. Certain Funds may utilize earnings and profits on redemption of shares as part of the dividends paid deduction.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing each Fund's tax return to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

The Income Tax Statement requires management of the Funds to analyze all open tax years for all major jurisdictions, which the Funds consider to be its federal income tax filings. The open tax years include the current year plus the prior three tax years. As of and during the six months ended September 30, 2022, the Funds did not record a liability for any tax benefits. The Funds have no examinations in progress and are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

3. INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS

(a) Investment Advisory Fees

The Adviser provides investment advisory services to the Funds pursuant to the terms of an investment advisory agreement (the "Advisory Agreement") between the Adviser and the Trust. In consideration for such services the Funds will pay the Adviser a fee based on the average daily net assets, computed and accrued daily and paid monthly in arrears. Pursuant to an administrative services agreement (the "Administration Agreement") with the Trust, the Adviser is entitled to a fee based on the average daily net assets, computed and accrued daily and paid monthly in arrears, for providing administrative services to the Funds that include the selection and monitoring of investment sub-advisers, negotiation of investment sub-advisory agreements, data gathering regarding investments, liaison with outside service providers such as the administrator, transfer agent, custodian, auditors and accountants, creation of investor communications, and other such activities.

Taxable Bond Fund – For the advisory services it provides pursuant to the Advisory Agreement, the Adviser is entitled to a fee calculated at an annual rate of 0.25% of the Taxable Bond Fund's average daily net assets. The Adviser has contractually agreed, however, to waive its advisory fee from 0.25% to 0.08% through June 30, 2023. The advisory fee waiver is not subject to recoupment. During the six months ended September 30, 2022, the Adviser waived \$162,391 of its advisory fee for the Taxable Bond Fund.

Under the Administration Agreement, the Taxable Bond Fund agreed to pay the Adviser at an annual rate of 0.10% of average daily net assets. The Adviser has contractually agreed to waive expenses at a rate of 0.07% of average daily net assets such that the Fund was incurring a net administrative services fee at an annual rate of 0.03% of average daily net assets. The administrative services waiver is not subject to recoupment. For the six months ended September 30, 2022, the Adviser waived \$66,867 under the Administration Agreement.

Municipal Bond Fund – For the advisory services it provides pursuant to the Advisory Agreement, the Adviser is entitled to a fee calculated at an annual rate of 0.27% of the Fund's average daily net assets. The Adviser has contractually agreed, however, to waive its advisory fee from 0.27% to 0.21% through June 30, 2023. The advisory fee waiver is not subject to recoupment. For the six months ended September 30, 2022, the Adviser waived \$297,614 of its advisory fee for the Municipal Bond Fund.

Under the Administration Agreement, the Municipal Bond Fund agreed to pay the Adviser at an annual rate of 0.10% of average daily net assets. The Adviser has contractually agreed to waive expenses at a rate of 0.07% of average daily net assets such that the Fund was incurring a net administrative services fee at an annual rate of 0.03% of average daily net assets. The administrative services waiver is not subject to recoupment. For the six months ended September 30, 2022, the Adviser waived \$347,217 under the Administration Agreement.

Defensive Allocation Fund – For the advisory services it provides pursuant to the Advisory Agreement, the Adviser is entitled to a fee calculated at an annual rate of 0.10% of the Defensive Allocation Fund's average daily net assets.

3. INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS (Continued)

(a) Investment Advisory Fees (Continued)

Equity Allocation Fund – For the advisory services it provides pursuant to the Advisory Agreement, the Adviser is entitled to a fee calculated at an annual rate of 0.24% of the Equity Allocation Fund's average daily net assets. The Adviser has contractually agreed, however, to waive its advisory fee from 0.24% to 0.16% through June 30, 2023. The advisory fee waiver is not subject to recoupment. During the six months ended September 30, 2022, the Adviser waived \$625,337 of its advisory fee for the Equity Allocation Fund.

Under the Administration Agreement, the Equity Allocation Fund agreed to pay the Adviser at an annual rate of 0.10% of average daily net assets. The Adviser has contractually agreed to waive expenses at a rate of 0.06% of average daily net assets such that the Fund was incurring a net administrative services fee at an annual rate of 0.04% of average daily net assets. The administrative services waiver is not subject to recoupment. For the six months ended September 30, 2022, the Adviser waived \$468,885 under the Administration Agreement.

(b) Sub-Advisory Fees

Nuveen Asset Management, LLC, MacKay Shields LLC and Allspring Global Investments, LLC (formerly known as Wells Capital Management Inc.) serve as the sub-advisers of the Municipal Bond Fund. Aperio Group, LLC and Wellington Management Company LLP serve as the sub-advisers of the Equity Allocation Fund. The Adviser pays a portion of its advisory fee to the sub-advisers for sub-advisory services they provide to the Funds.

(c) Custodian Fees

JPM serves as custodian of the Trust's assets and is responsible for maintaining custody of the Funds' cash and investments and retaining sub-custodians, including in connection with the custody of foreign securities. Cash held by the custodian, the amount of which may at times be substantial, is insured by the Federal Deposit Insurance Corporation up to the amount of available insurance coverage limits.

(d) Fund Accounting Fees

JPM also serves as the Trust's fund accounting agent.

(e) Administration Fees

UMB Fund Services, Inc. ("UMBFS") serves as the Trust's administrator and provides various administrative services necessary for the operations of the Trust including facilitating general Fund management; supervising the maintenance of each individual Fund's general ledger, the preparation of the Funds' financial statements, the payment of dividends and other distributions to shareholders; and preparing specified financial, tax, and other reports.

(f) Transfer Agent Fees

UMBFS also serves as a Trust's Transfer Agent and dividend disbursing agent.

(g) Trustees' Fees

Certain Trustees and officers of the Trust are officers of the Adviser. Each Trustee receives an annual retainer. Effective April 1, 2022, the annual retainer is \$75,000. Each Trustee also receives \$2,000 for each telephonic meeting that he or she attends, plus reimbursement of related expenses. The Chair of the Audit Committee is paid an additional \$7,500 per year.

5. INVESTMENTS IN AFFILIATED ISSUERS

As of September 30, 2022, certain of the Fund's investments were deemed to be investments in affiliated issuers under the 1940 Act, primarily because the Fund owns 5% or more of the investment's total capital. The activity resulting from investments in these investments, including dividend income as well as realized gains and losses, is identified in the Statement of Operations as transactions with affiliated investments. A listing of these affiliated investments (including activity during the period ended September 30, 2022) is shown below:

7. FEDERAL TAX INFORMATION (Continued)

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses on investment transactions.

U.S. GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or NAV per share. For the fiscal tax year ended February 28, 2022, permanent differences in book and tax accounting have been reclassified to paid-in capital and total distributable earnings/(losses) as follows:

	Increase/(Decrease)	
	Paid-In Capital	Total Distributable Earnings/(Losses)
Taxable Bond Fund	\$ —	\$ —
Municipal Bond Fund	(447,216)	447,216
Defensive Allocation Fund	(338,218)	338,218
Equity Allocation Fund	(2,834)	2,834

As of February 28, 2022, the components of accumulated earnings/(losses) on a tax basis were as follows:

	Taxable Bond Fund	Municipal Bond Fund	Defensive Allocation Fund	Equity Allocation Fund
Undistributed ordinary income	\$ 802,276	\$ —	\$ —	\$ 125,107
Undistributed tax-exempt income	—	3,388,801	—	—

8. RECENT MARKET DEVELOPMENTS

The Funds may be subject to various risks as described in the Funds' prospectus. Political tensions and armed conflicts, including the Russian invasion of Ukraine, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. The COVID-19 disease has resulted in significant disruptions to global business activity. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange trading suspensions and closures, which may lead to less liquidity in certain instruments, industries, sectors or the markets generally, and may ultimately affect the performance of the Funds.

9. SUBSEQUENT EVENTS

Management has evaluated the events and transactions through the date the financial statements were issued and determined there were no subsequent events that required adjustment to our disclosure in the financial statements, except for the events listed below.

Effective October 25, 2022, Grantham, Mayo, Van Otterloo & Co. LLC ("GMO") began serving as a sub-adviser for the Equity Allocation Fund's quality strategy. For the services provided pursuant to its sub-advisory agreement, GMO is entitled to a fee at an annual rate based on the average daily net assets of the Fund that it manages. Such fee is paid to GMO by the Adviser out of the advisory fee it receives from the Equity Allocation Fund.

A special meeting of shareholders of the Defensive Allocation Fund has been scheduled for January 3, 2023 to consider the approval of the elimination of the Defensive Allocation Fund's fundamental investment policy regarding diversification, thereby changing the Defensive Allocation Fund's classification from a diversified investment company to a non-diversified investment company under the 1940 Act.

APPROVAL OF ADVISORY AND SUB-ADVISORY AGREEMENTS FOR ASPIRIANT TRUST

At a meeting held on May 20, 2022, the Board considered the renewal of (1) the Trust's advisory agreement with the Adviser, on behalf of the Funds, (2) the sub-advisory agreements between the Adviser and each of Aperio Group, LLC ("Aperio") and Wellington Management Company LLP ("Wellington") with respect to Equity Allocation Fund, and (3) the sub-advisory agreements between the Adviser and each of Nuveen Asset Management, LLC ("Nuveen") and Allspring Global Investments, LLC. ("Allspring"; together with Aperio, Wellington, Nuveen, the "Sub-Advisers") with respect to the Municipal Bond Fund.

After the initial two-year term, the agreements must be approved annually (i) by the vote of the Trustees or by a vote of the shareholders of the Funds and (ii) by the vote of a majority of the Trustees who are not parties to the agreements or "interested persons" of any party thereto (the "Independent Trustees"), as defined in the 1940 Act, at a meeting called for the purpose of voting on such approval. Each year after the initial term, the Board calls and holds a meeting to decide whether to continue the agreement for an additional one-year term. In preparation for such meeting, the Board requests and reviews a wide variety of information from the Adviser and Sub-Advisers.

In considering whether to renew the Trust's advisory and sub-advisory agreements, the Trustees requested and reviewed materials from the Adviser and Sub-Advisers to help the Trustees evaluate the Adviser's and Sub-Advisers' fees under the agreements. Representatives from the Adviser provided an overview of its advisory business and discussed its investment personnel, investment processes, and investment experience. The Board discussed the written materials from the Adviser and Sub-Advisers, the Adviser's oral presentation, and other relevant information that the Board received, and considered the approval of the agreements in light of this information. In its deliberations, the Board did not identify any single factor that was paramount or controlling and individual Trustees may have attributed different weights to various factors. Certain factors considered by the Board are addressed in more detail below.

Nature, Extent, and Quality of Services

In considering the nature, extent, and quality of the services provided by the Adviser and each Sub-Adviser to each Fund, as applicable, the Board reviewed, among other things, the Adviser's and each Sub-Adviser's personnel, experience, and compliance program. The Board considered the background and experience of the Adviser's and each Sub-Adviser's senior management and the qualifications, backgrounds, and responsibilities of the portfolio managers responsible for the day-to-day management of the Funds. The Board also reviewed information pertaining to the Adviser's and each Sub-Adviser's organizational structure, investment operations, and other relevant information, including information relating to the financial condition of the Adviser and each Sub-Adviser to determine whether adequate resources were available to continue to provide a high level of service to the Funds. The Board concluded that, within the context of its full deliberations, it was satisfied with the nature, extent and quality of the services provided to the Funds by the Adviser and each Sub-Adviser, as applicable.

Performance

The Board reviewed information regarding the performance of each Fund for various periods, as well as peer group and benchmark comparative performance. The Board also reviewed information regarding the portions of the Equity Allocation Fund managed by Aperio and Wellington, and the portions of the Municipal Bond Fund managed by Nuveen and Allspring. The Board noted periods of outperformance and underperformance relative to each Fund's comparative index and Morningstar fund universe. The Board concluded that, within the context of its full deliberations, it was satisfied with the performance of each Fund and the portions of the Funds managed by Aperio, Wellington, Allspring and Nuveen, as applicable.

ASPIRIANT TRUST OTHER INFORMATION (Continued)

September 30, 2022 (Unaudited)

Costs of Services

The Board reviewed information regarding the Funds' advisory and sub-advisory fees, observing that the advisory fee for each of the Defensive Allocation Fund and Taxable Bond Fund was lower than the advisory fees of 90% of funds in its respective Morningstar fund universe and that the advisory fee for each of the Equity Allocation Fund and Municipal Bond Fund was lower than the advisory fees of 80% of funds in its respective Morningstar fund universe. The Trustees noted that the Adviser does not manage any other client accounts using the same strategies as the Funds, and, therefore, did not have a basis for comparing the Funds' advisory fees to those of other clients of the Adviser. The Board noted that the Adviser is responsible for paying the Sub-Advisers out of the advisory fee it receives from the applicable Funds. The Board further noted that the net expense ratio of each of the Equity Allocation Fund, Municipal Bond Fund and Defensive Allocation Fund, respectively, was in the lowest 50%, 30% and 50% of funds in its respective Morningstar category. The Board also observed that Taxable Bond Fund's net expense ratio was in the highest 10% of funds in its Morningstar fund universe, but noted that Taxable Bond Fund was still growing its asset base and that most funds in the category were not "fund of fund" structures. With respect to those assets of the Funds that the Adviser invests in underlying funds, the Board noted that the Funds' advisory fees are based on services that the Adviser provides to the Funds that are in addition to, not duplicative of, the services provided to an underlying fund by an adviser to the underlying fund. The Board concluded that each Fund's advisory fee and, if applicable, sub-advisory fees are fair and reasonable in light of the services that the Fund receives.

Profitability

The Board reviewed information about the profitability of each Fund to the Adviser and Sub-Advisers and considered whether the level of profitability was reasonable and justified in light of the quality of the services rendered to the Fund. The Board noted that the Adviser reimburses to its clients that are also shareholders of a Fund all net ordinary income that it receives from such Fund. Recognizing the difficulty in evaluating an investment adviser's profitability with respect to the funds it manages in the context of an adviser with multiple lines of business and noting that other profitability methodologies might also be reasonable, the Board determined that the level of profitability of the Adviser and Sub-Advisers was within the range the Board considered reasonable.

Economies of Scale

The Board considered the potential for economies of scale, noting that the Sub-Advisers' fee schedules include breakpoints and that the Adviser had been decreasing its fee over time with respect to the Equity Allocation Fund and Municipal Bond Fund, and currently was contractually waiving a portion of its fee with respect to the Equity Allocation Fund, Municipal Bond Fund and Taxable Bond Fund, thereby reducing the amount that it retains after paying the Sub-Advisers, if applicable. The Board concluded that the Funds' shareholders were benefitting from any economies of scale realized by the Adviser with respect to the Funds.

Ancillary Benefits

The Board noted the benefits received by the Adviser and the Sub-Advisers as a result of their relationships with the Funds (other than advisory and sub-advisory fees), including the intangible benefits of their association with the Funds generally and any favorable publicity arising in connection with the Funds' performance.

Conclusion

Based on its deliberations and evaluation of the information described above, the Board, including the Independent Trustees, unanimously concluded that the Adviser's and Sub-Advisers' fees are fair and reasonable in light of the services provided to the Funds and approved the continuation of the agreements.

APPROVAL OF SUB-ADVISORY AGREEMENT WITH GMO FOR ASPIRIANT RISK-MANAGED EQUITY ALLOCATION FUND

At a meeting held on June 29, 2022, the Board considered the approval of a sub-advisory agreement between the Adviser and Grantham, Mayo, Van Otterloo & Co. LLC (“GMO”) with respect to the Equity Allocation Fund.

After its initial two-year term, the agreement must be approved annually (i) by the vote of the Trustees or by a vote of the shareholders of the Equity Allocation Fund and (ii) by the vote of a majority of the Trustees who are not parties to the agreement or “interested persons” of any party thereto, as defined in the 1940 Act, cast at a meeting called for the purpose of voting on such approval. Each year after the initial two-year term, the Board will call and hold a meeting to decide whether to continue the agreement for an additional one-year term. In preparation for such meeting, the Board will request and review a wide variety of information from GMO.

Prior to and at the meeting at which the Trustees considered the agreement, the Trustees requested and reviewed materials from GMO to help the Trustees evaluate GMO’s proposed fee under the agreement. Representatives from GMO provided an overview of their advisory business and discussed their investment personnel, investment processes, and investment experience. The Board discussed the written materials, GMO’s oral presentation, and other relevant information that the Board received, and considered the approval of the agreement in light of this information. In its deliberations, the Board did not identify any single factor that was paramount or controlling and individual Trustees may have attributed different weights to various factors. Certain factors considered by the Board are addressed in more detail below.

Nature, Extent, and Quality of Services

In considering the nature, extent, and quality of the services to be provided by GMO to the Equity Allocation Fund, the Board reviewed the background and experience of GMO’s senior management. The Board also reviewed information pertaining to GMO’s organizational structure, investment operations, and other relevant information, including information relating to the financial condition of GMO to determine whether adequate resources were available to provide a high level of service to the Equity Allocation Fund. The Board reviewed information regarding the qualifications, backgrounds, and responsibilities of the portfolio managers proposed to be responsible for the day-to-day management of GMO’s portion of the Equity Allocation Fund. The Board concluded that, within the context of its full deliberations, it was satisfied with the nature, extent and quality of the services to be provided to the Equity Allocation Fund by GMO.

Performance

The Board reviewed GMO’s comparable account composite performance, noting periods of outperformance and underperformance relative to the composite’s comparative index. The Board concluded that, within the context of its full deliberations, the Equity Allocation Fund should be in a position to benefit from the expertise of GMO in managing its comparable accounts.

Costs of Services and Profitability

The Board reviewed the proposed sub-advisory fee and compared it to the fee charged by GMO to manage other accounts using the quality strategy. The Board reviewed profitability information provided by GMO. The Board noted that the Adviser would be responsible for paying GMO out of the advisory fee it receives from the Equity Allocation Fund. The Board concluded that the proposed fee was fair and reasonable in light of the services that the Equity Allocation Fund is expected to receive.

Economies of Scale

The Board considered the potential for economies of scale and noted that GMO’s fee schedule includes breakpoints.

Ancillary Benefits

The Board noted the potential benefits to be received by GMO as a result of its relationship with the Equity Allocation Fund (other than sub-advisory fees), including the intangible benefits of its association with the Equity Allocation Fund generally and any favorable publicity arising in connection with the Equity Allocation Fund's performance.

Conclusion

Based on its deliberations and evaluation of the information described above, the Board, including the Independent Trustees, unanimously (i) concluded that the terms of the agreement are fair and reasonable; (ii) concluded that the fee to be paid to GMO is fair and reasonable in light of the services expected to be provided to the Equity Allocation Fund; and (iii) agreed to approve the agreement for an initial term of two years.

ASPIRIANT TRUST EXPENSE EXAMPLES

September 30, 2022 (Unaudited)

As a shareholder of the Funds, you incur ongoing costs, including management fees and other expenses of each Fund. If you invest through a financial intermediary, you may also incur additional costs such as a transaction fee charged on the purchase or sale of each Fund or an asset-based management fee. The following Example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2022 to September 30, 2022.

ACTUAL EXPENSES

The first line of the following table under each Fund's name titled "Actual" provides information about actual account value and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during the period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the following table under each Fund's name titled "Hypothetical" provides information about hypothetical account value and hypothetical expenses based on each Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not each Fund's actual return. The hypothetical account value and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in each Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any costs that may be associated with investing in each Fund through a financial intermediary. Therefore, the second line of the table is useful in comparing the ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if any costs associated with investing through a financial intermediary were included, your costs would have been higher.
