ASPIRIANT RISK-MANAGED REAL ASSETS FUND LETTER TO SHAREHOLDERS

March 31, 2024 (Unaudited)

The Aspiriant Risk-Managed Real Assets Fund (“XARAX” or the “Fund”) returned 3.29% for the one-year period ended March 31, 2024. Over the same period, the Fund’s benchmark, the Dow Jones Global Select Real Estate Securities Index (the “Benchmark”), returned 8.81%.

The Fund has an allocation to marketable securities through the use of exchange-traded funds (ETFs) and mutual funds. This allocation is used to provide the Fund a level of liquidity and broad exposure to global real assets including but not limited to publicly traded real estate, infrastructure companies, and commodities. Public real estate generally had negative returns for the year, but with a wild ride due to rate hikes at the beginning of the year and then optimism around the Federal Reserve’s ability to engineer a “soft landing” of the US economy. Funds that focused on US real estate outperformed the Benchmark, such as the Principal Real Estate Securities Fund and the Vanguard Real Estate ETF, but those with a more global focus trailed the Benchmark, such as the Fidelity International Real Estate Fund. The commodity exposures in the Fund were focused on precious metals. That exposure added value to the Fund as gold outperformed the Benchmark.

The ability to invest in private real estate and other private real assets is one of the potential advantages of the Fund. The exposures to commingled limited partnerships and non-traded real estate investment trust provide a mix of private high-quality real estate, infrastructure assets and absolute return strategies. These allocations were generally mixed during the fiscal year. Real Estate focused managers underperformed the Benchmark, while those assets focused on infrastructure and water outperformed the Benchmark.

Lastly, the Fund’s allocations to private real assets outperformed the Benchmark for the fiscal year as equity markets experienced volatility throughout the year and ended the year in positive territory. Several strategies that had mark ups to their portfolio’s include those that have data center and airport parking lot exposures.

During the year, we added Bayview MSR Opportunity Offshore, L.P (“Bayview”) to the portfolio. Bayview aims to generate consistent returns through a hedge portfolio of mortgage servicing rights with low correlations to the broader movements of financial markets.

Thank you for your investment in the Fund.

John Allen
Portfolio Manager
Chief Investment Officer, Aspiriant, LLC

The performance data quoted represents past performance and is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information quoted. To obtain performance information current to the most recent month-end, please call 1-877-997-9971.

Portfolio composition will change due to ongoing management of the Fund. References to specific securities should not be construed as a recommendation by the Fund, the adviser or distributor.

An investment in the Shares is not suitable for you if you need foreseeable access to the money you invest. The Fund is an appropriate investment only for those investors who can tolerate a high degree of risk and do not require a liquid investment.

The Fund is subject to substantial risks — including market risks, industry concentration risks, strategy risks, valuation risks, and investment advisers to the Investment Funds (the “Underlying Manager”) risks. The Fund allocates its assets to Underlying Managers and invests in Investment Funds that invest in and actively traded securities and other financial instruments using a variety of strategies and investment techniques that may involve significant risks. Investment Funds

generally will not be registered as investment companies under the 1940 Act and, therefore, the Fund will not be entitled to the various protections afforded by the 1940 Act with respect to its investments in Investment Funds. The investment adviser will not have any control over the Underlying Managers, thus there can be no assurances that an Underlying Manager will manage its Investment Funds in a manner consistent with the Fund's investment objective.

The Fund intends to offer to repurchase approximately 5% of its outstanding Shares (generally each quarter), and there is no guarantee that Shareholders will be able to sell all of the Shares that they desire to sell in any particular repurchase offer. If a repurchase offer is oversubscribed, the Fund may repurchase only a pro rata portion of the Shares tendered by each Shareholder. The potential for proration may cause some investors to tender more Shares for repurchase than they wish to have repurchased. The decision to offer to repurchase Shares is at the sole discretion of the Board of Trustees (the "Board") and the Board may, under certain circumstances, elect not to offer to repurchase Shares. Various other types of risks are also associated with investments in the Fund, including risks relating to the fund of funds structure of the Fund, risks relating to compensation arrangements and risks relating to industry concentration.

Each prospective investor in the Fund will be required to certify that it is an "accredited investor" within the meaning of Rule 501 under the Securities Act of 1933, as amended. The criteria for qualifying as an "accredited investor" are set forth in the investor application that must be completed by each prospective investor.

Please consider the Fund's investment objectives, risks, charges and expenses carefully before investing. The prospectus that contains this and other information about the Fund is available by calling 1-877-997-9971 and should be read carefully prior to investing.

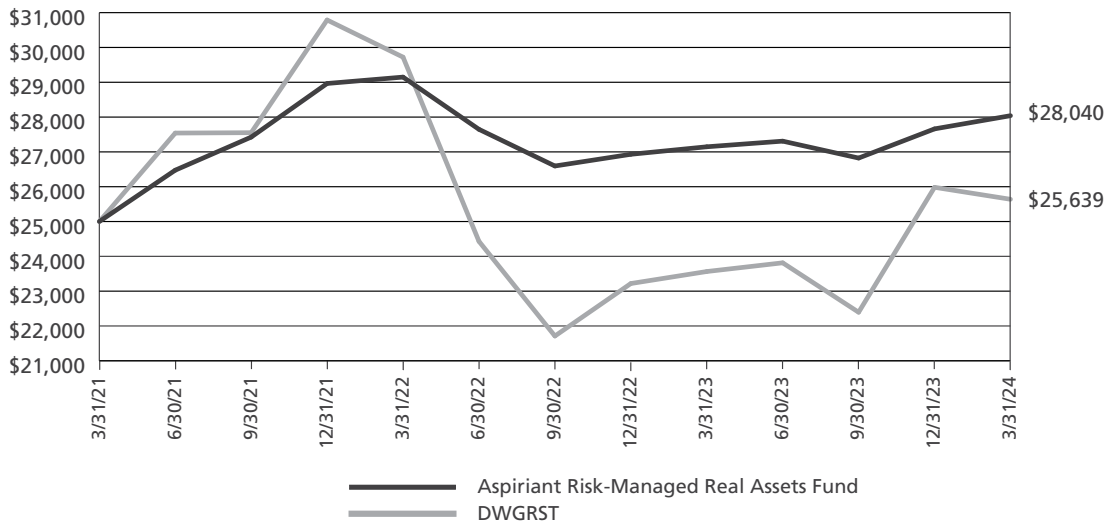

The below referenced unmanaged index does not reflect the deduction of fees and taxes associated with a mutual fund, such as investment management and fund accounting fees. Investors cannot invest directly in an index, although they can invest in their underlying securities.

The Dow Jones Global Select Real Estate Securities Index is a float-adjusted, market capitalization weighted index that is a measure of the types of global real estate securities that represent the ownership and operation of commercial or residential real estate. In order to be included in the index, a company must be both an equity owner and operator of commercial and/or residential real estate, have a minimum total market capitalization of \$200 million at its time of inclusion, have at least 75% of its total revenue derived from the ownership and operation of real estate assets, and the liquidity of its stock must be commensurate with that of other institutionally held real estate securities. It is not possible to invest directly in an index.

Aspiriant Risk-Managed Real Assets Fund is distributed by UMB Distribution Services, LLC. Aspiriant, LLC serves as the investment adviser of the Fund. UMB Distribution Services, LLC and Aspiriant, LLC are unaffiliated.

The Investment Manager has entered into an investment management fee limitation agreement with the Fund, whereby the Investment Manager has agreed to waive its advisory fee from 0.50% to 0.10% through April 1, 2025. This arrangement may be terminated only by the Fund’s Board of Trustees.

* For the period close of business April 1, 2021 (commencement of operations) through March 31, 2024.

(1) The DWGRST tracks the performance of equity real estate investment trusts and real estate operating companies traded globally. Returns include the reinvestment of distributions but do not consider sales charges. Performance is shown for illustrative purposes only and does not predict or depict the performance of the Fund.

The above referenced unmanaged index does not reflect the deduction of fees and taxes associated with a mutual fund, such as investment management and fund accounting fees. Investors cannot invest in an index, although they can invest in their underlying securities.

Returns reflect the reinvestment of distributions made by the Fund, if any. The graph and the performance table above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

ASPIRIANT RISK-MANAGED REAL ASSETS FUND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 2024

1. ORGANIZATION

Aspiriant Risk-Managed Real Assets Fund is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a non-diversified, closed-end management investment company. The Fund operates under an Agreement and Declaration of Trust dated October 26, 2020. The Fund commenced its operations on April 1, 2021, after the conversion of the Global Real Estate Opportunities, L.P. (the "Private Fund"), a privately offered investment fund managed by the Investment Manager (as defined below) with investment policies, objectives, guidelines, and restrictions that were in all material respects equivalent to those of the Fund. The Fund offers shares of beneficial interest ("Shares"). Aspiriant, LLC serves as the investment adviser (the "Investment Manager") of the Fund. The Investment Manager is an investment adviser registered with the Securities and Exchange Commission (the "SEC") under the Investment Advisers Act of 1940, as amended. The investment objective of the Fund is to seek long term capital appreciation. The Fund is a "fund of funds" that intends to invest primarily in general or limited partnerships, funds, corporations, trusts or other investment vehicles (collectively, "Investment Funds") that invest substantially all their assets in real estate, infrastructure, commodities and other real asset securities and funds. Under normal circumstances, the Fund intends to invest at least 80% of its net assets in Investment Funds that hold equity, debt and other economic interests in real assets or real asset companies.

The Board of Trustees (the "Board") of the Fund has the overall responsibility for monitoring the operations of the Fund, including the Investment Manager.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation and Use of Estimates — The Fund is an investment company and follows the accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services – Investment Companies ("ASC 946"). The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of the financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

Consolidation of a Subsidiary — Aspiriant RMRA (Subholding) Inc. (the "Subsidiary"), is a wholly-owned Delaware corporate subsidiary of the Fund. The Consolidated Schedule of Investments, Consolidated Statement of Assets and Liabilities, Consolidated Statement of Operations, Consolidated Statement of Changes in Net Assets, Consolidated Statement of Cash Flows and the Consolidated Financial Highlights of the Fund include the accounts of its Subsidiary. As of and for the period ended March 31, 2024, all intercompany accounts and transactions have been eliminated in consolidation. The inception date of the Subsidiary was October 1, 2023. On March 31, 2024, the Subsidiary had net assets of \$20,495,853 which equals 11.4% of the Fund's net assets.

Cash — Cash and cash held in escrow for Shares tendered and Shares received in advance, if any, may include demand deposits. Such deposits, at times, may exceed federally insured limits. The Fund has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on such accounts.

Investment Valuation — The Board has delegated day-to-day management of the valuation process to the Investment Manager as the appointed Valuation Designee, which has established a valuation committee to carry out this function. The Valuation Designee is subject to the oversight of the Board. The Valuation Designee is responsible for assessing and managing key valuation risks, and is generally to review valuation methodologies, valuation determinations, and any information provided by the Investment Manager.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in Portfolio Funds – As a practical expedient, the Fund estimates the fair value of interests in Portfolio Funds (“Portfolio Funds’ Interests”) that do not have a readily determinable fair value using the net asset value (“NAV”) per share (or equivalent, such as member units, or an ownership interest in partners’ capital to which a proportionate share of net assets is attributed) of the Portfolio Funds as determined by the respective investment manager (“Portfolio Fund’s Manager”), if the NAV per share of the Portfolio Fund (or its equivalent) is calculated in a manner consistent with measurement principles in ASC 946 as of the reporting entity’s measurement date. If the NAV per share (or its equivalent) of the Portfolio Fund is not as of the Fund’s measurement date or is not calculated in a manner consistent with the measurement principles of ASC 946, the Fund may adjust the most recent NAV per share (or its equivalent) as necessary in order to estimate the fair value for the Portfolio Fund in a manner consistent with the measurement principles of ASC 946 as of the Fund’s measurement date. The Fund will deviate from the NAV (or its equivalent) if it is probable at the measurement date that the Fund will redeem a portion of a Portfolio Fund at an amount different from the NAV per share (or its equivalent).

Investments in Portfolio Funds are subject to the terms of the Portfolio Funds’ offering documents. Valuations of Portfolio Funds may be subject to estimates and are net of management and performance incentive fees or allocations payable to the Portfolio Funds’ Managers as required by the Portfolio Funds’ offering documents. If the Valuation Designee determines that the most recent NAV (or its equivalent) reported by the Portfolio Fund does not represent fair value or if the Portfolio Fund fails to report a NAV to the Fund, a fair value determination is made under procedures established by and under the general supervision of the Valuation Designee. Because of the inherent uncertainty in valuation, the estimated values may differ from the values that would have been used had a ready market for the securities existed, and the differences could be material. Prospective investors should be aware that situations involving uncertainties as to the value of portfolio positions could have an adverse effect on the Fund’s net assets if the judgments of the Valuation Designee, or the Portfolio Funds’ Managers should prove to be incorrect. The Portfolio Funds’ Managers only provide determinations of the NAV of each Portfolio Fund on a monthly/ quarterly basis, in which event it will not be possible to determine the NAV of the Fund more frequently. The Portfolio Funds’ Interests in which the Fund invests or plans to invest are generally illiquid. The Fund may not be able to dispose of Portfolio Funds’ Interests that it has purchased. As of March 31, 2024, investments in Portfolio Funds were valued at \$122,786,330, which represented 68.29% of the NAV of the Fund.

Investments in Marketable Securities — Investments in marketable securities listed or traded on an exchange are valued at their last traded price, as of the exchange’s official close of business. The Fund does not adjust the quoted price for these investments even in situations where the Fund holds a large position and a sale could reasonably impact the quoted price.

Redeemable securities issued by open-end investment companies are valued at the investment company’s applicable NAV per share, with the exception of exchange-traded open-end investment companies which are priced as marketable securities.

Investment Transactions and Related Investment Income — All investment transactions are recorded on the trade date. Interest income on cash held in the Fund’s interest-bearing accounts is recognized on an accrual basis. Dividend income is recorded on ex-dividend dates. Distributions from marketable securities are classified as investment income or realized gains based on the U.S. income tax characteristics of the distribution. Distributions received from Portfolio Funds are recorded on the effective date, based on the character determined by the Portfolio Fund. Return of capital or security distributions received from Portfolio Funds and securities are accounted for as a reduction to cost. Net realized gain or loss on investments includes net investment gains or losses from marketable

ASPIRIANT RISK-MANAGED REAL ASSETS FUND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued) MARCH 31, 2024

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

securities and realized gains or losses indirectly allocated to the Fund from investments in Portfolio Funds. Realized gains and losses from investments in Portfolio Funds are recognized when reported by those Portfolio Funds. Realized gains and losses from other investments are recorded on a specific identification basis.

Foreign Currency Translation — The books and records of the Fund are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated into U.S. dollar equivalents using period-end spot foreign currency exchange rates. Purchases and sales of investments, and their related income and expenses are translated at the rate of exchange on the respective dates of such transactions. Realized and unrealized gains and losses resulting from foreign currency changes are reflected in the Consolidated Statement of Operations as a component of net realized gain/(loss) and net change in unrealized appreciation on marketable securities and Portfolio Funds.

Federal Income Taxes — It is the Fund's intention to comply with the special provisions of Subchapter M of the Internal Revenue Code applicable to regulated investment companies ("Regulated Investment Company"). As provided therein, in any tax year in which a Fund generates 90% of its gross income from qualifying sources under Section 851(b)(2) of the Internal Revenue Code, a Fund's portfolio holds at least 50% of its assets in qualifying assets at the end of each quarter, and distributes at least 90% of its taxable income, such Fund (but not the shareholders) will be relieved of federal income tax on the income distributed.

The Fund did not qualify as a Regulated Investment Company pursuant to Subchapter M of the Internal Revenue Code for the tax years ended October 31, 2022 and October 31, 2023 because it did not generate 90% of its gross income from qualifying sources. As a result, the Fund was treated as a regular C corporation for federal income tax purposes and as such was obligated to pay federal, state and local income tax on taxable income for the tax years ended October 31, 2022 and 2023. In order to qualify as a Regulated Investment Company for the tax year ending October 31, 2024, the Fund moved certain assets into a Subsidiary. The Investment Manager determined that at March 31, 2024 the Fund met the "more likely than not" evaluation criterion provided by FASB ASC Topic 740, Income Taxes ("ASC 740"), to qualify as a Regulated Investment Company for tax year ending October 31, 2024. The Subsidiary is a domestic limited liability company that is treated as a regular C corporation for tax reporting and has a tax year end of October 31. The Subsidiary is subject to federal, state and local income taxes. See Note 8 for further details.

ASC 740 requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing the Fund's tax return to determine whether these positions meet a "more likely than not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained upon examination by a taxing authority. A tax position that meets the "more likely than not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Consolidated Statement of Operations.

ASC 740 requires management of the Fund to analyze all open tax years for all major jurisdictions that may be subject to examination by a tax authority. The open tax years include the current year plus the prior three tax years, or all years if the Fund has been in existence for less than three years. As of and during the year ended March 31, 2024, the Fund did not record a liability for any unrecognized tax benefits. The Fund has no examinations in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

3. FAIR VALUE DISCLOSURE

In accordance with FASB ASC 820-10, Fair Value Measurement (“ASC 820”), the Fund discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level III measurements). ASC 820 provides three levels of the fair value hierarchy as follows:

Level I — Unadjusted quoted prices for identical assets or liabilities in active markets that are accessible at the measurement date and on an-ongoing basis. Investments in marketable securities are classified at Level I in the fair value hierarchy.

Level II — Valuations based on observable inputs other than quoted prices in active markets for identical assets or liabilities.

Level III — Valuation techniques that require inputs that are both significant to the fair value measurement and are unobservable (e.g. supported by little or no market activity).

The following table summarizes the valuation of the Fund’s investments as of March 31, 2024, by the fair value hierarchy levels:

Investments	Fair Value Measurements				
	Level I	Level II	Level III	NAV as Practical Expedient	Total
Marketable Securities	\$ 57,554,349	\$ —	\$ —	\$ —	\$ 57,554,349
Portfolio Funds	—	—	—	122,786,330	122,786,330
Short-term investment	3,087,817	—	—	—	3,087,817
Total Investments	\$ 60,642,166	\$ —	\$ —	\$ 122,786,330	\$ 183,428,496

Investments in Portfolio Funds valued at the NAV as practical expedient are not required under U.S. GAAP to be classified in the fair value hierarchy, however, they are included in the table above to reconcile the total value of investments.

⁽¹⁾ Investments in commingled limited partnerships that have exposure to a range of security types.

⁽²⁾ Consists of both private equity and venture capital investments.

⁽³⁾ As of March 31, 2024, the Fund had total outstanding commitments of \$26,726,383 and \$957,709 to the partnership interests and membership interests of Portfolio Funds, respectively.

* The information summarized in the table above represents the general terms for the specified asset class. Individual Portfolio Funds may have terms that are more or less restrictive than those terms indicated for the asset class as a whole. In addition, most Portfolio Funds have the flexibility, as provided for in their constituent documents, to modify and waive such terms.

4. RISK FACTORS

The Fund's investment activities expose it to various risks, which are associated with the markets and the financial instruments in which it invests (as discussed in Notes 2 and 3). The following summary is not intended to be a comprehensive summary of all risks inherent in investing in the Fund.

Credit — Financial instruments which potentially subject the Fund to concentrations of credit risk consist primarily of cash and cash equivalents, including cash held in escrow. Substantially, all of the Fund's cash is deposited with one financial institution. Deposits, at times, may be in excess of federally insured limits. The Fund has not experienced any losses on its cash and cash equivalents, nor does it believe it is exposed to any significant credit risk.

Liquidity Constraints of Portfolio Funds — Since the Fund may make additional investments in or effect withdrawals from a Portfolio Fund only at certain times pursuant to limitations set forth in the governing documents of the Portfolio Fund, the Fund from time to time may have to invest a greater portion of its assets temporarily in money market securities than it otherwise might wish to invest and may have to borrow money to repurchase Shares. The redemption or withdrawal provisions regarding the Portfolio Funds vary from fund to fund. Therefore, the Fund may not be able to withdraw its investment in a Portfolio Fund promptly after it has made a decision to do so. Some Investment Funds may impose early redemption fees while others may not. This may adversely affect the Fund's investment return or increase

MARCH 31, 2024

4. RISK FACTORS (Continued)

the Fund's expenses and limit the Fund's ability to make offers to repurchase Shares from shareholders. Portfolio Funds may be permitted to redeem their interests in-kind. Thus, upon the Fund's withdrawal of all or a portion of its interest in an Investment Fund, it may receive securities that are illiquid or difficult to value.

Limited Liquidity — Shares in the Fund provide limited liquidity since shareholders will not be able to redeem Shares on a daily basis. A shareholder may not be able to tender its Shares in the Fund promptly after it has made a decision to do so. There is no assurance that a shareholder will be able to tender its Shares when or in the amount that a shareholder desires. In addition, with very limited exceptions, Shares are not transferable, and liquidity will be provided only through repurchase offers made quarterly by the Fund. Shares in the Fund are therefore suitable only for investors who can bear the risks associated with the limited liquidity of Shares and should be viewed as a long-term investment.

Non-Diversified Status — The Fund is a "non-diversified" management investment company. Thus, there are no percentage limitations imposed by the 1940 Act on the Fund's assets that may be invested, directly or indirectly, in the securities of any one issuer. Consequently, if one or more securities are allocated a relatively large percentage of the Fund's assets, losses suffered by such securities could result in a higher reduction in the Fund's capital than if such capital had been more proportionately allocated among a larger number of securities. The Fund may also be more susceptible to any single economic or regulatory occurrence than a diversified investment company.

Leverage Risk — The Fund does not generally intend to utilize leverage, however, the Fund is permitted to and may, in the sole discretion of the Investment Manager, leverage its investment positions, when deemed appropriate by the Investment Manager for any reason. Furthermore, the strategies implemented by the Portfolio Funds typically are leveraged. While leverage presents opportunities for increasing the total return on investments, it has the effect of potentially increasing losses as well. Accordingly, any event which adversely affects the value of an investment could be magnified to the extent leverage is utilized. The cumulative effect of the use of leverage with respect to any investments in a market that moves adversely to such investments could result in a substantial loss that would be greater than if the investment were not leveraged.

Market Risk — Market risk arises primarily from changes in the market value of financial instruments. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments, and the volatility and liquidity in the markets in which the financial instruments are traded. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally, the value of Funds' investments, and overall performance of the Fund. In many cases, the use of financial instruments serves to modify or offset market risk associated with other transactions, and accordingly, serves to decrease the Fund's overall exposure to market risk. The Fund attempts to control its exposure to market risk through various analytical monitoring techniques.

5. INVESTMENTS BY THE FUND

The Fund, generally, has the ability to liquidate its investments periodically, depending on the type of investment, and for the Portfolio Funds, depending on the provisions of the respective Portfolio Fund's governing agreements. Contribution requirements may also vary based on each Portfolio Fund's governing agreements. Investment advisors who operate Portfolio Funds in which the Fund invests, receive fees for their services. The fees include management fees, performance allocations and direct expenses based upon the NAV of the Fund's investment. These fees are deducted directly from the trading account or Portfolio Fund investment balance in accordance with an advisory or limited partnership agreement. The management fees ranged from 0%–2% (with possible performance or high water mark fees ranging from 0% to 20%).

5. INVESTMENTS BY THE FUND (Continued)

The Fund can liquidate or redeem the marketable securities and open-end investment companies on a daily basis, and there are no restrictions or limitations placed on such investments. Additionally, the terms of the Portfolio Funds' governing documents generally provide for restrictions on transferability, minimum holding periods or lock-ups, the suspension of redemptions/withdrawals or the institution of gates on redemptions/withdrawals, at the discretion of the Portfolio Funds' Managers, and as a result, the Fund may not be able to redeem/withdraw from an investment in a Portfolio Fund without continued exposure to changes in valuations, which could be material.

The Fund's share of Portfolio Funds that were 5% or more of its net assets as of March 31, 2024 is as follows:

Investment (Description of Strategy)	Percentage of NAV	Fair Value	Redemptions Permitted/Restrictions
Prime Property Fund, LLC (Private Real Estate Fund) ^(a)	8.2%	\$ 14,737,214	Quarterly withdrawals (90 days' notice required)

5. INVESTMENTS BY THE FUND (Continued)

As of March 31, 2024, certain of the Fund's investments were deemed to be investments in affiliated issuers under the 1940 Act, primarily because the Fund owns 5% or more of the investment's total capital. The activity resulting from investments in these investments, including dividend income as well as realized gains and losses, is identified in the Consolidated Statement of Operations as transactions with affiliated investments. A listing of these affiliated investments (including activity during the year ended March 31, 2024) is shown below:

Investments ⁽¹⁾	Fair Value 3/31/2023	Purchases	Proceeds From Sales or Other Dispositions	Net Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Fair Value 3/31/2024	Dividend Income

6. INVESTMENT MANAGEMENT FEE AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS AND AFFILIATES

Investment Management Fee — The Fund pays to the Investment Manager an investment management fee (the "Investment Management Fee") in consideration of the advisory and other services provided by the Investment Manager to the Fund. Pursuant to an investment management agreement (the "Investment Management Agreement"), the Fund pays the Investment Manager a quarterly Investment Management Fee equal to 0.50% on an annualized basis of the Fund's NAV as of each quarter-end. NAV means the total value of all assets of the Fund, less an amount equal to all accrued debts, liabilities and obligations of the Fund. For purposes of determining the Investment Management Fee payable to the Investment Manager for any quarter, NAV will be calculated prior to any reduction for any fees and expenses of the Fund for that quarter, including, without limitation, the Investment Management Fee payable to the Investment Manager for that quarter, and before giving effect to any repurchase of Shares in the Fund effective as of that date. For the year ended March 31, 2024, the Fund incurred \$887,049 in management fees.

The Investment Manager has entered into an investment management fee limitation agreement (the "Management Fee Limitation Agreement") with the Fund, whereby the Investment Manager has agreed to waive 0.40% of its Investment Management Fee. The Management Fee Limitation Agreement was in effect for one year from the commencement of operations and will automatically renew for consecutive one-year terms thereafter (each, a "Current Term"). Neither the Fund nor the Investment Manager may terminate the Management Fee Limitation Agreement during the Current Term. The Investment Management Fee waiver is not subject for recoupment. For the year ended March 31, 2024, the Fund waived \$709,639 in Investment Management Fees.

Certain officers of the Fund are employees of the Investment Manager and are not paid by the Fund for the services they provide to the Fund.

6. INVESTMENT MANAGEMENT FEE AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS AND AFFILIATES (Continued)

Reimbursement by Investment Manager — As a result of the Fund's failure to qualify as a Regulated Investment Company, the Investment Manager has made a conclusion that the calculation of the NAVs upon which the shareholders transacted during the period from December 31, 2021 through June 30, 2023 (the "overstatement period") did not properly account for the tax liability during the period. The shareholder transactions that were negatively impacted during the overstatement period were reprocessed. The Fund did not claw back the overpayment amount from positively impacted shareholders, instead, the Investment Manager will make a contribution to the

Fund for the overpayment to make the Fund whole. For the overstatement period, the Fund recorded a receivable from the Investment Manager in the amount of \$456,720 to make the Fund whole, of which \$29,678 was recorded during the year ended March 31, 2024.

Furthermore, the Investment Manager contributed \$1,252,244 to the Fund, which is equal to the income tax expense paid as a result of the Fund not qualifying as a Regulated Investment Company for the tax year ended October 31, 2022.

Administrative Services Fee — Pursuant to an administrative services agreement with the Fund, the Investment Manager is entitled to a fee calculated at an annual rate of 0.10%, payable quarterly in arrears, based upon the Fund's net assets as of quarter-end for providing administrative services to the Fund. Such services include the review of shareholder reports and other filings with the SEC; oversight of the Fund's primary service providers; periodic due diligence reviews of the Fund's primary service providers; coordination and negotiation of all of the contracts and pricing relating to the Fund's primary service providers, with the advice of Fund counsel; providing information to the Board relating to the review and selection of the Fund's primary service providers; and all such other duties or services necessary for the appropriate administration of the Fund that are incidental to the foregoing services. For the year ended March 31, 2024, the Fund incurred \$177,410 in administrative services fees.

Distributor — UMB Distribution Services, LLC is the distributor (also known as principal underwriter) of the Shares of the Fund and acts as the agent of the Trust in connection with the continuous offering of Shares of the Fund.

Administrator — UMB Fund Services, Inc. (the "Administrator") serves as administrator to the Fund and provides certain administrative, tax, clerical, bookkeeping and investor related services. For these services the Administrator receives a quarterly fee, as well as reasonable out of pocket expenses. For the year ended March 31, 2024, the Fund incurred \$183,597 in administration fees.

Certain trustees and officers of the Fund are employees of the Administrator and are not paid by the Fund for the services they provide to the Fund.

Custodian — UMB Bank, n.a. (the "UMB Bank"), an affiliate of the Administrator, serves as the primary custodian of the assets of the Fund, and may maintain custody of such assets with U.S. and non-U.S. sub custodians (which may be banks and trust companies), securities depositories and clearing agencies in accordance with the requirements of Section 17(f) of the 1940 Act and the rules thereunder. Assets of the Fund are not held by the Investment Manager or commingled with the assets of other accounts other than to the extent that securities are held in the name of the UMB Bank or U.S. or non-U.S. sub custodians in a securities depository, clearing agency or omnibus customer account of such custodian. In consideration for these services, the Fund pays the UMB Bank an asset based fee.

Chief Compliance Officer — Vigilant Compliance, LLC ("Vigilant") provides Chief Compliance Officer ("CCO") services to the Fund. An officer of the Fund is an employee of Vigilant.

Guarantees and Indemnification — In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims against the Fund that have not yet occurred. Based on experience, the Fund expects the risk of loss to be remote.

7. CAPITAL CONTRIBUTIONS AND WITHDRAWALS

The Fund will generally offer Shares for purchase as of the first business day of each calendar quarter, except that Shares may be offered more or less frequently as determined by the Board in its sole discretion. The Board may also suspend or terminate offerings of Shares at any time.

A substantial portion of the Fund’s investments are illiquid. For this reason, the Fund is structured as a closed-end fund, which means that the Shareholders will not have the right to redeem their Shares on a daily basis. In addition, the Fund does not expect any trading market to develop for the Shares. As a result, if investors decide to invest in the Fund, they will have very limited opportunity to sell their Shares. At the discretion of the Board and provided that it is in the best interests of the Fund and the Shareholders to do so, the Fund intends to provide a limited degree of liquidity for the Shareholders by conducting repurchase offers generally quarterly with a valuation date on or about March 31, June 30, September 30 and December 31 of each year. Each repurchase offer ordinarily will be limited to the repurchase of approximately 5% of the Shares outstanding, but if the value of Shares tendered for repurchase exceeds the value the Fund intended to repurchase, the Fund may determine to repurchase less than the full number of Shares tendered. In such event, Shareholders will have their Shares repurchased on a pro rata basis, and tendering Shareholders will not have all of their tendered Shares repurchased by the Fund. No Shareholder will have the right to require the Fund to redeem its Shares.

8. FEDERAL TAX INFORMATION

At March 31, 2024, the cost of investments on a tax basis and gross unrealized appreciation/(depreciation) on investments for federal income tax purposes were as follows:

Cost of investments	<u>\$ 152,250,766</u>
Gross unrealized appreciation	36,624,917
Gross unrealized depreciation	<u>(5,447,187)</u>
Net unrealized appreciation on investments	<u>\$ 31,177,730</u>

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses on investments.

8. FEDERAL TAX INFORMATION (Continued)

U.S. GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or NAV per share. Permanent differences in book and tax accounting are attributable to net operating losses for the tax year ended October 31, 2023, and to nondeductible current and deferred income tax expenses for the fiscal year ended March 31, 2024. The following amounts have been reclassified to paid-in capital and total distributable earnings:

	Increase (Decrease)	
	Paid-In Capital	Total Distributable Earnings (Loss)
Tax Year Ended October 31, 2023	\$ (779,403)	\$ 779,403
Fiscal Year Ended March 31, 2024	(920,175)	920,175

See Note 2 — Federal Income Taxes for additional information related to the significant considerations in the evaluation of the Fund's qualification as a Regulated Investment Company.

The Fund was a C Corporation for income tax purposes and was therefore obligated to pay federal and state income tax on its taxable income for tax years ended October 31, 2022 and 2023. In order to re-qualify as a Regulated Investment Company for the tax year ending October 31, 2024, the Fund moved certain assets into a Subsidiary. The Investment Manager determined that based on the evidence available at March 31, 2024, the Fund will, at a "more likely than not" ASC 740 standard, comply with the requirements to qualify as a Regulated Investment Company. As a result, the current taxes reflect the estimated tax liability of the Fund as of March 31, 2024, based on taxable income of the Subsidiary. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities of the Subsidiary for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of the available evidence, it is more likely than not that all of the deferred income tax asset will not be realized.

Currently the federal income tax rate for a corporation is 21% and blended state tax rate net of Federal benefit is 6.71%. As of March 31, 2024, the Fund recorded a net deferred tax liability for the investments of the Subsidiary. Should a net deferred tax asset exist in the future, the Fund will assess whether a valuation allowance should be booked to reserve against that asset.

The Fund's current and deferred tax (expense)/benefit as of March 31, 2024 consist of the following:

Current Tax (Expense) Benefit	
Federal	\$ 724,093
State	(10,032)
Total Current Tax (Expense) Benefit	714,061
Deferred Tax (Expense) Benefit	
Federal	(1,238,504)
State	(395,732)
Total Deferred Tax (Expense) Benefit	(1,634,236)
Total Income Tax (Expense) Benefit	\$ (920,175)

ASPIRIANT RISK-MANAGED REAL ASSETS FUND

MARCH 31, 2024

8. FEDERAL TAX INFORMATION (Continued)

Components of the Fund's deferred tax assets and liabilities are as follows:

Deferred tax asset	
Capital loss carryforward	\$ 68,755
Deferred tax liability	
Net unrealized gain on investments	\$ (2,677,990)
Net Deferred Tax Asset/(Liability)	<u>\$ (2,609,235)</u>

Total income tax (expense)/benefit (current and deferred) differs from the amount computed by applying the federal and state statutory income tax rates to net investment income and realized and unrealized gain/(losses) on investment before taxes as follows:

Federal income tax (expense)/benefit at statutory rate	\$ (1,164,438)
State income tax (expense)/benefit (net of federal benefit)	(372,066)
Effect of Regulated Investment Company operations not subject to tax	(5,107)
Net operating loss write off	(134,052)
Tax carryback benefit	755,488
Net Income Tax (Expense) Benefit	<u>\$ (920,175)</u>

A C corporation's utilization of net operating losses in future years is limited to the lesser of all available net operating losses or 80% of taxable income before net operating loss utilization. For the tax year ended October 31, 2023, the Fund did not utilize any net operating losses. The Fund is expected to re-qualify as a Regulated Investment Company for the tax year ending October 31, 2024, as a result, the net operating losses incurred by the Fund as a C corporation during the tax year ended October 31, 2023 will not be carried forward. The Subsidiary is treated as a C corporation and is subject to net operating losses carry forward utilization.

Capital losses incurred during the year by a C corporation can be carried back or forward five years. During the tax year ended October 31, 2023, the Fund incurred capital losses. As a result, the Fund will carry back approximately \$3,597,370 of the incurred capital losses and has recorded an estimated tax benefit in the amount of \$755,488. As of October 31, 2023, the Fund had \$1,388,967 of net capital loss carryforwards to offset future net capital gains, if any, to the extent provided by treasury regulations.

9. INVESTMENT TRANSACTIONS

For the year ended March 31, 2024, the total purchases and total proceeds from sale, redemption or other disposition of investments, excluding cash equivalents, amounted to \$134,062,612 and \$120,695,485, respectively.

10. COMMITTED REPURCHASE AGREEMENT FACILITY

The Fund entered into a one-year term committed repurchase agreement facility amounting to \$15,000,000 with UMB Bank on December 19, 2022, which was subsequently terminated effective August 21, 2023. The purpose of the facility was to finance temporarily the repurchase or redemption of Shares of the Fund. The Fund could borrow up to 10% of the Fund's assets or \$15,000,000, whichever was less. As collateral, the Fund would transfer to UMB Bank cash or cash equivalents ("Cash Collateral") or eligible marketable securities ("Non-Cash Collateral") under the repurchase agreement transaction. UMB Bank would maintain Cash Collateral at 100% and /or Non-Cash Collateral at 200% of the prior day's market value of the repurchase agreement transaction. The Fund would be

charged interest for borrowing under this agreement. The interest would be calculated using the Federal Funds Target Range - Upper Limit (FFTRU) plus 150 basis points. The commitment fee for the period ended August 21, 2023, is disclosed on the Consolidated Statement of Operations and the commitment fee receivable as a result of early termination is disclosed on the Consolidated Statement of Assets and Liabilities. During the period ended August 21, 2023, the Fund did not borrow from the committed repurchase agreement facility.

11. SUBSEQUENT EVENTS

The Fund has evaluated the events and transactions through the date the financial statements were issued and determined there were no subsequent events that required adjustment to or disclosure in the financial statements.

Aspiriant Risk-Managed Real Assets Fund

Opinion on the Financial Statements

We have audited the accompanying consolidated statement of assets and liabilities, including the consolidated schedule of investments, of Aspiriant Risk-Managed Real Assets Fund (the "Fund") as of March 31, 2024, the related consolidated statements of operations and cash flows for the year then ended, the statements of changes in net assets (consolidated as applicable) for each of the two years in the period then ended, the financial highlights (consolidated as applicable) for each of the three years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of March 31, 2024, the results of its operations and its cash flows for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2024, by correspondence with the custodian, transfer agent and underlying fund managers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2021.

BOARD CONSIDERATION OF THE INVESTMENT MANAGEMENT AGREEMENT

At a meeting of the Board of Trustees (the “Board”) held on March 6, 2024 and March 7, 2024 (the “Meeting”), by a unanimous vote, the Board, including a majority of Trustees who are not “interested persons” within the meaning of Section 2(a)(19) of the Investment Company Act (the “Independent Trustees”), approved the continuation of the Investment Management Agreement between Aspiriant, LLC (the “Investment Manager”) and the Fund.

In advance of the Meeting, the Independent Trustees requested and received materials from the Investment Manager to assist them in considering the approval of the Investment Management Agreement. The Independent Trustees reviewed reports from third parties and management about the below factors, including a fund comparison report compiled by an independent third-party provider of investment company data, that included information comparing the Fund’s performance, fees and expenses with those of a group of peer funds selected by the independent third-party provider. The Board did not consider any single factor as controlling in determining whether to approve the Investment Management Agreement nor are the items described herein all-encompassing of the matters considered by the Board. Pursuant to relief granted by the U.S. Securities and Exchange Commission in light of the COVID-19 pandemic (the “Order”) and a determination by the Board that reliance on the Order was appropriate due to circumstances related to the current or potential effects of COVID-19, the Meeting was held by videoconference.

The Board engaged in a detailed discussion of the materials with management of the Investment Manager. The Independent Trustees then met separately with independent counsel to the Independent Trustees for a full review of the materials. Following this session, the full Board reconvened and after further discussion determined that the information presented provided a sufficient basis upon which to approve the Investment Management Agreement.

NATURE, EXTENT AND QUALITY OF SERVICES

The Board reviewed and considered the nature and extent of the investment management services provided by the Investment Manager to the Fund under the Investment Management Agreement, including the selection of Fund investments. The Board also reviewed and considered the nature and extent of the non-advisory, administrative services provided by the Investment Manager, including, among other things, providing office facilities, equipment, and personnel. The Board reviewed and considered the qualifications of the portfolio managers and other key personnel of the Investment Manager who provide the investment management and administrative services to the Fund. The Board determined that the Investment Manager’s portfolio managers and key personnel are well-qualified by education and/or training and experience to perform the services for the Fund in an efficient and professional manner. The Board also took into account the Investment Manager’s compliance policies and procedures, including the procedures used to determine the value of the Fund’s investments. The Board concluded that the overall quality of the advisory and administrative services provided to the Fund by the Investment Manager was satisfactory.

PERFORMANCE

The Board considered the investment performance of the Investment Manager with respect to the Fund. The Board considered the performance of the Fund as compared to the performance of several key indices for each year since the Fund’s inception and year-to-date through September 30, 2023. The Board also considered the overall performance of the Fund, noting that the Investment Manager did not currently manage any other funds with similar investment objectives and strategies as the Fund. The Board further considered performance information of the Fund relative to performance information provided for comparable peer funds by the independent third-party data provider. The Board concluded that, on the basis of the information provided, the Fund’s performance was satisfactory and within the range of comparable peer funds identified by the third-party data provider.

BOARD CONSIDERATION OF THE INVESTMENT MANAGEMENT AGREEMENT (Continued)

FEES AND EXPENSES

The Board reviewed the investment management fee rate and total expense ratio of the Fund. The Board compared the investment management fee and total expense ratio of the Fund with various comparative data provided by the independent third-party data provider. The Board noted that the investment management fee and expenses were lower than the fees and expenses payable by other comparable peer funds identified. In addition, the Board noted that the Investment Manager may waive investment management fees and/or reimburse expenses of the Fund pursuant to a contractual expense reimbursement agreement. The Board concluded that the investment management fees paid by the Fund and total expense ratio were lower than the comparable peer funds identified and reasonable and satisfactory in light of the services provided.

BREAKPOINTS AND ECONOMIES OF SCALE

The Board reviewed the structure of the Fund's investment management fee under the Investment Management Agreement, noting that there were no breakpoints. The Board considered the Fund's investment management fees and concluded that the fees were reasonable and satisfactory in light of the services provided. The Board also determined that, given the Fund's current size, economies of scale were not present at this time.

PROFITABILITY OF INVESTMENT MANAGER

The Board considered and reviewed information concerning the costs incurred and profits realized by the Investment Manager from its relationship with the Fund. The Board also reviewed the Investment Manager's financial condition and noted that the financial condition appeared stable. The Board determined that the investment management fees and the compensation to the Investment Manager was reasonable and the financial condition was adequate.

ANCILLARY BENEFITS AND OTHER FACTORS

The Board also discussed other benefits to be received by the Investment Manager from its management of the Fund including, without limitation, the ability to market its advisory services for similar products in the future. The Board noted that the Investment Manager did not have affiliations with the Fund's transfer agent, fund accountant, custodian, or distributor and, therefore, did not derive any benefits from the relationships these parties may have with the Fund. The Board concluded that the investment management fees were reasonable in light of the fall-out benefits.

GENERAL CONCLUSION

Based on its consideration of all factors that it deemed material, and assisted by the advice of its counsel, the Board concluded it would be in the best interest of the Fund and its shareholders to approve the continuance of the Investment Management Agreement.

PROXY VOTING POLICIES AND PROCEDURES
